

UNDERBANK

# Park View

Parkside living  
reimagined

Park View is embraced by  
the growing Underbank  
community, with its own  
direct connections to nature.

# Welcome to Park View.

Underbank is intimately connected to nature. From the river's edge to the escarpment, the landscape—once an old stud farm—is now home to young families, with all the amenity you would expect from a modern urban community.

Park View is the fourth dynamic neighbourhood to join the Underbank stable. It affords extensive natural views, with many blocks directly overlooking parkland. These blocks are perfect for first home buyers, with access to all that Underbank has to offer; this is parkside living, reimagined.

## Landscaping

Furthering the connection to nature, over 6,000 trees and shrubs have been planted along the banks of Korkuperrimul Creek and Werribee River and a further 10,000 trees will be planted this winter on the site.

# A natural advantage

Park View offers an array of outdoor activities, all in a beautiful natural setting, moments from your new home.

The Korkuperrimal Creek—featuring beautiful mature river red gums—runs the full length of the Park View neighbourhood. Shared paths alongside this waterway, featuring outdoor exercise equipment and children's play equipment, will connect Park View directly to the new Underbank Town Centre, as well as the full network of paths that take you to every part of the Underbank community and even into the Bacchus Marsh township. Natural landscaping of these pathways ensures the new features blend seamlessly into their environment, never fighting against nature, but working with it.

Park View is a short stroll from Rosehill Village Park—a completed stage of Underbank—with its extensive tree planting and

landscaping, swings and play equipment, basketball hoop, a kickabout area, as well as BBQ facilities and undercover tables and benches. Park View will also have future road access and a shared walking/cycle bridge. As a resident you can take your morning walk or run along the network of paths beside the creeks and Werribee River, before heading back to your new home.

Residents are also a short walk from the new sporting precinct, featuring a full-sized AFL and cricket oval, a pavilion, and tennis and netball courts. Combined with over 50 hectares of parks, landscaped creek corridors and open space, Park View will nurture its community and provide countless gathering spaces for its residents.

# Tailored for couples and young families

Park View features block sizes that are perfectly tailored to first home buyers. With many under 400m<sup>2</sup>, they are priced to meet the requirements of couples and young families looking to create their first home, in a place that actually feels like home. The level blocks keep building costs down, while still offering the joys of the rolling hills and natural features of the surrounding landscape.

With the benefits of the government's \$20,000 first home owners grant, when you choose Park View at Underbank, you'll also get complimentary access to contemporary home designs. They're cost-effective, environmentally responsible and make the most of Underbank's magical vistas. Tailored by our architects to the unique landscape and site conditions, these designs totally reimagine modern, flexible living.

# A True Town Centre

The future Underbank Town Centre is the jewel in the crown for our new community. It's not just a shopping centre—with proposed retail, cafes and restaurants—but also features a number of substantial community facilities. For example, the exclusive Underbank Residents' Clubhouse—to be known as Club U—will include a swimming pool, fully equipped gym, a tennis court, and meeting rooms. Only residents and their guests will have access to this remarkable facility.

The expansive Town Centre will include hotel accommodation, restaurants, cafes, speciality shops, and a supermarket. In keeping with the community approach, there is provision for farmers markets, with the potential to attract a range of regional producers selling directly to residents. Alongside the Town Centre is a new lake, with landscaped gardens and lakeside picnic areas, bringing the natural setting directly to the town's centre.

For our families with small children, planning for the new Underbank Childcare Centre is well advanced. This state-of-the-art facility will

provide over 100 places from 2020, providing a local childcare option for our new residents.

Where other developments rely on existing townships and infrastructure, Underbank's Town Centre—at the heart of River View—is specifically designed as a gathering point for our residents. A focus on social interaction, with cafes, restaurants and bars, means you can connect with friends, enjoy a great meal and a glass of wine, just moments from your own home. Underbank is about providing more than just houses, we're creating a truly urban way of life.

Underbank's Town Centre also debuts a new concept in town living; our Small Office/Home Office (or SOHO) Townhouses. These architect-designed mixed-use dwellings are split across three levels, with the upper levels providing spacious living, and the ground floor offering an independent work or studio space for those wishing to live and work within the community.

These modern, sensitively designed SOHO dwellings are perfect for 'flexi workers' looking for a remote home office, or those wanting to establish local businesses catering to Underbank and its surrounding regional communities. This concept aims to establish the Underbank Town Centre as a vibrant hub, that positions the development not just as a residential township, but as a place to do business, creating an independent microeconomy.

Respect.  
Reimagine.  
Redefine.

Located in Bacchus Marsh, within one of Victoria's most picturesque landscapes, Underbank is something truly special. Formerly a renowned stud farm, Underbank celebrates and respects its past, and reimagines it throughout the landscape and community design.

Taking this enviable location and adapting its rich history, Underbank's next-generation contemporary homes, redefine how we live—setting new standards in flexible living environments. Beautifully complemented by lush parklands and natural waterways, Underbank heralds an exciting new era of community living.

Retaining and enhancing the existing stables for continual use.

Within an environment that has thrived for thousands of years, Underbank offers an unsurpassed connection with nature.

Established trees, abundant plant life, and revitalised running waterways are uniquely protected by Underbank's natural bowl formation. The valley floor is surrounded by hills and an escarpment affording magnificent views in every direction.

Bringing these natural surroundings right to your front door, Underbank will offer tree-lined streets, green open spaces, and well-appointed parks. The masterplan, individual homes, and the whole landscape design work with the land, not against it.

# Everything you need.

The masterplan for Underbank is much more than a collection of new homes. This is an entire community which carefully balances traditional neighbourhood design with the unique features of this part of Victoria's countryside.

Existing stables will be transformed into public spaces, along with the establishment of sporting facilities, community clubhouse and easy connections into the Town Centre. Underbank will truly be a natural extension of Bacchus Marsh.

# Underbank: An Extension of Bacchus Marsh

The township of Bacchus Marsh combines heritage buildings, leafy streetscapes and all the modern conveniences you could ask for.

Major supermarkets, shopping centres, childcare facilities, friendly cafes and local favourite restaurants are all here. The middle of town, along with the local hospital and modern Lerderberg Library, are just minutes away by car or local bus.

Along the town's famous Avenue of Honour, a variety of market gardens offer fresh produce direct from local growers' farms and orchards.

Bacchus Marsh is also known for its selection of prestigious schools including Bacchus Marsh Grammar, St Bernard's Catholic School, Bacchus Marsh Primary School and Bacchus Marsh College.

Underbank is only 2.7km from Bacchus Marsh Train Station, providing direct access to Melbourne's Southern Cross Station in approximately 45 minutes.

Further, the new Halletts Way extension has been completed, giving our future residents direct access to the Western Freeway.

Nearby Maddingley Park is a favourite picnic destination for locals, while keen bushwalkers enjoy the Werribee Gorge and Wombat State Forest for its historic mining relics and natural bushland.

The Bacchus Marsh West Golf Club and numerous recreational facilities all provide places to keep fit and enjoy the great outdoors.
